

## RESTRUCTURING & INSOLVENCY

Increasing complexity and volatility in the international markets, combined with the inevitable integration of regional markets led even some of the biggest companies of yesterday in Serbia and the region to significant financial difficulties in the present. As a result, regional governments and private businesses are facing novel challenges brought about by increased competition and rapidly evolving market dynamics. Through a combination of our Restructuring & Insolvency team's expertise, regulatory know-how and sector-specific expertise of our consultants we are able to provide tailored solutions to any client facing tough choices.

Our Restructuring & Insolvency attorneys focus on providing cutting-edge solutions under the Serbian Insolvency Act. We combine the breadth of our firm's legal practice with our expertise in the practice area to support client companies facing distress. To that extent, Gecić Law advises and represents debtor companies and their boards, banks, lenders and creditors as well as licensed insolvency practitioners. Our clients can expect exceptional risk analysis, superior project management skills and pragmatic advice.

Our Restructuring & Insolvency team specializes in providing advice and support to clients on

- Formal insolvency proceedings
- Restructuring plans
- Debt rescheduling
- Out-of-court work-outs
- Crisis management and corporate contingency planning
- Implementation of corporate restructurings, including asset dispositions and judicial proceedings
- Bankruptcy litigation
